

With the rapid construction of smart grids across the country, Envicool provides solutions for 24/7 continuous temperature and humidity control under extreme hot and cold weather to ensure reliability ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...

Modular design with high energy density, compatible with 500V~1500V system. Back-to-back or left and right installation saving a footprint above 50%.

Good protection performance: As an outdoor cabinet, it has good protection performance, high IP protection level, dustproof, waterproof, moisture-proof, and resist the influence of outdoor harsh ...

Electrical selection compatible with 1000-1500V. also adds 24VDC, which can support black start. Modular PCBA design with convenient expansion for level 2 and 3 (BAMS/ESU). Hot plug design, ...

Full configuration capacity with 8 modules with 344kWh. Discharge at time of peak demand to reduce expensive demand charge. Powers a facility when the grid goes down, or application in areas without ...

Support max. 4 cabinets in parallel, friendly for medium-sized project integrators.

This 1500V solution launched in early 2017 is ideal for system integrators and end users who require high-performance solar inverters for large photovoltaic plants and are interested in reducing ...
