

Explore high-performance server racks, data center cabinets, and power distribution solutions from CPI. Optimize space, cooling and uptime today.

We provide the right cage, suite or server cabinet options to accommodate your equipment size, power and cooling requirements while providing layers of physical security to protect your deployment.

Our modular inverters are ideal for securing AC loads in data centers with IT loads powered by DC (Open Compute Project or not). Our inverters provide a pure AC power using the existing DC ...

Legrand offers a configure-to-order cabinet platform that offers best-in-class energy efficiency with ready-to-ship parts for shorter lead times and faster deployment. Data centers replace their IT ...

Rakworx's All-In-One cabinet is meticulously designed for peak efficiency and functionality. It includes premium features like environmental sensors, electrical systems, natural cooling, security measures, and monitoring.

This 1MW ESS acts as a reliable backup power source, ensuring your critical operations--such as production lines, data centers, or cold storage--continue seamlessly during grid failures, safeguarding your revenue and ...

15kW / 35kWh Hybrid Solar System Integrated Energy Storage Cabinet Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an ...

Industrial ESS Cabinets provide megawatt-scale energy storage for factories, data centers & utilities. Discover how these high-capacity battery systems reduce demand charges, enable renewables integration, and ...

Access flexible, customizable cabinet configurations tailored to your unique needs and power source preferences. Secure mission-critical solutions in a technology ecosystem with 24-hour surveillance ...

The space-saving PDU is easy to move and adapt to the future demands of the data center. The PDU offers superior power protection and monitoring, and the flexibility and scalability to match your actual ...
