

20-foot solar-powered container for port use in Central Asia

A 20ft photovoltaic container replaced 12 diesel generators in a shipyard project in Shanghai, China, saving 150,000 yuan in fuel expenses within a period of 6 months, while delivering ...

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

Cool-Watt® is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists.

Designed for off-grid mobility, these containers use solar energy to power electronics, communication systems, and lighting, making them ideal for temporary or remote operations.

We also supply new and used ISO shipping container from stock in main ports of China, like Tianjin, Shanghai, Qingdao, Guangzhou, Shenzhen. Our advantage is provide customers with customized ...

We also supply new and used ISO shipping container from stock in main ports of ...

Increase your energy capabilities with our compact and powerful 20ft Solar Energy Container construction. Designed to be strong and mobile, it offers 140kWh per day, thanks to its 60 m² solar ...

Powtech's Containerized Solar PV Solution utilizes innovative hybrid technology housed within a standard 20-ft marine container, delivering up to 10,000 kWh of energy annually.

Discover our global leading mobile solar container factory delivering high-efficiency, durable portable solar solutions ideal for off-grid power, disaster relief, and remote sites.

A German logistics company installed solar panels on 50 chilled containers and reduced their carbon footprint by 62%. When a typhoon hit the Philippines, a UN disaster response team used ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...
