

Through mechanical waterproof design and rubber strip sealing, we ensure the integrity of the waterproof structure for outdoor enclosures in various environments, increasing product durability ...

Durable waterproof sheet metal cabinets for lithium battery and solar storage systems. Customized design, weather protection, CNC cutouts, and fast delivery.

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

Space-saving: using door-mounted embedded integrated air conditioners can save space in the cabinet by not occupying any space, improving the available space, enhancing the top structural integrity, ...

Constructed with long-lasting materials and sophisticated technologies inside, the storage cabinet reliably works even under extreme environmental conditions. Thus, this product would turn out very ...

Whether you're powering a factory in Nur-Sultan or a resort hotel near Lake Balkhash, modern solar storage solutions like the Astana system offer unprecedented energy independence.

The solution adopts new energy (wind and diesel energy storage) technology to provide a reliable guarantee for the stable operation of communication base stations.

It is built specifically for outdoor installation and integrates advanced LiFePO4 battery technology, a high-level battery management system, and secure weatherproof housing, making it ideal for ...

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...
