

Austria-based Solarcont has just launched Solarcontainer, a shipping container-sized device that lets you set up a mobile solar power plant just about anywhere.

Daniel Petrovic 6 from Austria built an off-grid system using 6kWp solar panels, a POW-HVM6.2K-PRO controller, and a 7.5kWh battery. A voltage-sensing relay prevents deep discharge.

Solarfold amortises very quickly, whether operating in Italy, northern Germany or in Austria; and guarantees ideal energy yields - whatever the weather. It's an investment that pays off very quickly ...

Solarcont, an Austrian startup, has unveiled Solarcontainer, a portable PV generator that can function as a mobile solar plant independent of the electrical grid.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

The Austrian energy company SolarCont has developed a mobile solar container that stores foldable photovoltaic panels for portable green energy anywhere.

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

The Mobil-Grid <sup>®</sup> is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

The off-grid version consists of a Solarfold container which, in conjunction with a suitable additional storage container, is not connected to the public power grid and functions completely autonomously.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
