

Discover our Data Centers & Server Room power protection, precision cooling, and IT equipment racks for industrial applications, small businesses, and homes.

The submersible waterproof rack server enclosures are tough and rugged for industrial applications offshore oil & gas facilities, chemical plants, water treatment plants, military and other specialized ...

We offer adaptable solutions for server racks to meet specific operating needs. Contact us today for a quote!

These heavy-duty steel outdoor buildings are ideal for housing servers and other critical hardware in or around harsh environments such as manufacturing facilities, mining operations or chemical plants.

Looking for high-quality Server Racks, Network Cabinets, Colocation Solutions, Data Center Racks, or Wall Mount Enclosures? Explore our wide range of options to meet your infrastructure needs!

This project implemented a power delivery system that distributes DC to the server racks. The system used a single rectification stage, thereby removing the conventional UPS, transformer, and the ...

Not all server racks are made equal, and one size does not fit all applications. In order to fill the need for all scenarios we carry air-conditioned, NEMA rated, soundproof cabinets for loud servers, and a wide ...

Flexible and scalable network/server rack enclosures. Designed to meet the current IT needs of today and the growing trends of tomorrow including high density cooling and power distribution.

Square hole mounting rails are constructed in 13-gauge mild steel, includes rack unit indicators, and are finished with a powder coat. Rails easily adjust in-depth in 1/4" increments.

These effectively replace the PSUs in the server boxes, and distribute DC power directly to the electronics inside the server boxes, using a single strip of metal.
