

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant step forward in ...

The Dominica Schools Microgrid Project serves as a proof point for how solar and storage systems can preserve community vibrancy through bolstering energy resilience amid intensifying climate-induced ...

From Wednesday 30th April to Sunday 4th May 2025, Dominica Electricity Services Ltd. (DOMLEC) will be conducting critical testing of a recently installed Battery Energy Storage System ...

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond Col#233; area, is nearing completion. Installation is already finished, ...

Our certified energy specialists provide round-the-clock monitoring and support for all installed home energy storage systems. From the initial consultation to ongoing maintenance, we ensure that your ...

With fully-integrated digital intelligence, an upgraded operating system, and factory-built, highly flexible building blocks, the Tech Stack lays the groundwork for better energy storage devices.

We provide important information on all the upcoming/announced grid-scale/utility scale energy storage system (ESS) projects in Dominica, including project requirements, timelines, budgets, ...

Battery energy storage systems provide multifarious applications in the power grid. BESS synergizes widely with energy production, consumption & storage components.

SunContainer Innovations specializes in tropical-climate energy storage systems, having deployed 17MW capacity across 8 Caribbean nations. Our Dominica-certified containers meet OECS safety ...

The \$50 million development in Dominica will support a 5-megawatt/2.5 megawatt-hours battery energy storage system that will aid the island's clean energy objectives.
