

What is a solar powered water pump?

Solar powered water pump designed and manufactured in Ireland. Comes fully enclosed in a steel housing with a PV panel as the lid and is fully pressure regulated. The SPS SolarFlo35 pumps water up to 1.5km in distance and up an incline of 20m vertical elevation. The system also has the capacity to power a 12V electric fence.

Where can a solar water pump be used in the Midlands?

We provide solar services throughout the Midlands, including Mullingar, Athlone, and Tullamore, and extend our reach to surrounding areas like Longford, Portlaoise, and Roscommon. Imagine getting water without worrying about fuel costs or electricity bills. That's what a solar water pump does.

How do I use the SPS solar pump?

Connect your outlet pipe delivering water to your tanks/troughs. Switch it on. The battery reserve means the pump can operate any time of the day and overnight as it is not powered directly from the solar panel. The SPS solar pump is placed beside the water source (up to 5m above the level of water).

Can a solar pump power an electric fence?
