

With several models to choose from, from an entry-level refrigerator-sized model to 5 MWh in a 20 ft container, you'll always find a suitable model for your situation.

Built within a standard container, it innovatively combines a foldable PV array, a high-efficiency energy storage system, and an intelligent energy management system.

Imagine powering an entire music festival or mining operation without grid access. Container outdoor power systems have become the go-to solution for temporary and permanent off-grid operations. ...

Sungrow is introducing its large-scale energy storage system, PowerTitan 3.0, to Europe, featuring grid-forming capability, next-generation battery cells, DC coupling for co-located solar ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Looking for a Modular BESS Container Europe? Maxbo Solar's customizable, weather-resistant storage works from -20°C to +45°C. 20-year lifespan, 24h deployment, perfect for ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

The e-GROUNDBOX solar trailer was designed based on our flagship e-GROUNDBOX system for ground-mounted solar power plants or flat roofs. Entirely designed and assembled in France, our ...
