

AMEA Power, together with Kyuden International Corporation of Japan, has announced a partnership with the International Finance Corporation (IFC) and other partners to deliver a large ...

Developed by AMEA Power, this flagship project will supply 3,100GWh of clean energy to more than 500,000 Egyptian homes and avoid 1.5 million tons of CO2 emissions annually.

Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and the start of construction on a giant solar-and-storage project ...

The BESS supports the solar power facility in Aswan Governorate in Egypt. Officials said the project is Egypt's first utility-scale integrated solar and storage installation.

Located in Egypt's southern Aswan Governorate, the hybrid system will integrate 1GW of solar PV capacity with a 600MWh battery energy storage system.

On completion, it will be the first integrated solar photovoltaic and battery storage project of this scale in Egypt, and a significant milestone in the country's energy transition. Egypt aims to ...

With a total project cost of over USD 700 million, the project comprises a 1,000 MW solar PV plant combined with a 600 MWh battery energy storage system (BESS) in the Aswan Governorate, Egypt.

Independent power producer (IPP) Scatec has raised US\$479 million for its Obelisk hybrid solar and battery storage project in Egypt.

The agreement entails the collaborative development of a total 1.2-gigawatt (GW) solar power project coupled with a 720-megawatt hour (MWh) battery energy storage system. According to ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar plant and 2 ...
