

Who are the top rated energy storage companies in the world?

Lithium-ion companies have come out as the top-rated suppliers on a new long-duration energy storage (LDES) leaderboard, while CO2 Battery company Energy Dome is the highest non-lithium company. Power firm RWE is about to start building a 400MW/800MWh BESS project in Germany, among the largest in the country to reach the construction stage.

Which countries are deploying record-breaking battery storage capacity in 2025?

European Union countries deployed record-breaking battery storage capacity for the 12th consecutive year in 2025. US sodium-ion (Na-ion) battery technology company Unigrid has begun international shipments of its proprietary sodium cobalt oxide (NCO) cathode cells at commercial volume.

When does the EU batteries regulation come into force?

The EU Batteries Regulation came into force in 2023, but its various stipulations become law over the next several years. What does it mean for Europe's BESS developers, operators and suppliers?

Does Scatec have a power purchase agreement in Egypt?

Scatec secures PPA for Africa's largest solar-plus-storage project, featuring 3.9 GWh battery. Scatec has inked a 25-year power purchase agreement in Egypt for a 1.95 GW solar, 3.9 GWh battery energy storage project, representing the developer's largest investment to date.

Dear battery enthusiast, Welcome to Battery Associates' April newsletter. We have summarised some of the month's most relevant news, highlighting recent developments and updates in the battery ...

Batteries Everywhere: Deploying Energy Storage Beyond EV As the world shifts gears into the realm of renewable energy, the fortunes of a sustainable future rest on advancements in ...

Our newsletter is a FREE publication dedicated to keeping you informed about the latest trends and developments in battery technology. In each issue, we dive into various aspects of the ...

Description: GlobalSpec's Batteries & Energy Storage reports on the latest advances in power supplies, keeping readers informed of new components and devices used for power ...

Energy storage news and more We strive to keep you updated on current market trends and happenings in the energy and battery storage industry. Discover the latest updates from our ...

For forty years, Batteries International has been the leading global platform for news, features and interviews serving the battery, recycling and energy storage markets.

Top energy storage & battery news platform covering technical articles, industry tenders, EV batteries, grid storage & upcoming energy events worldwide. - The Battery Magazine

Subscribe to Newsletter What the EU Batteries Regulation means for the BESS industry The EU Batteries Regulation came into force in 2023, but its various stipulations become law over the ...

Elemental Battery Metals has received a EUR240 million (? 1 billion zloty) government/EU grant to build a battery recycling and metals recovery plant. The facility will process spent batteries ...

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary
