

Detects early thermal runaway signs using acoustic AI technology, offering warnings 20 times faster than traditional methods with a 15-year lifespan. Activates aerosol fire suppression upon detecting ...

Equipped with high-quality phosphate iron lithium battery cells and advanced safety features, it ensures safe and reliable operation. The high-efficiency BMS technology eliminates series losses and ...

With our C& I solar power storage systems, you don't have to be physically present to monitor your energy usage. Our cutting-edge technology allows you to configure and control the system locally or ...

Designed for industrial and commercial use, the BESS-372K liquid-cooled battery system delivers reliable 372kWh capacity. Featuring virtual synchronous technology and robust safety, it's ideal for ...

The 372kWh LiFePO4 Solar Battery Storage Cabinet is a renewable energy commercial and industrial-scale intelligent energy storage system. Engineered with superior quality lithium iron phosphate ...

Liquid-cooled Battery Cabinet ECO-B372LS The liquid-cooled battery cabinet adopts advanced cabinet-level liquid cooling and temperature balancing strategy.

EK conducted a comprehensive and multi-level test on the 372kWh liquid-cooled smart outdoor cabinet, mainly including mechanical safety, electrical safety, functional safety and other tests.

It integrates a high-voltage LFP battery with a capacity of 372KWh and a power rating of 150KW, making it suitable for both commercial and industrial applications. The system includes a Battery ...

372 kWh liquid-cooled cabinet battery storage system. Intelligent liquid-cooled temperature control, reduce system auxiliary power consumption. Configure the local control and remote monitoring ...

372kWh Liquid-cooled Outdoor Cabinet for Lithium Battery Cabinet-type Battery Lithium Battery Rental Cabinet
