

These mobile storage containers are built to last a life time and strong enough to withstand portable storage use. Our newest portable storage containers include the addition of composite wall panels ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

By combining photovoltaic power generation, energy storage, and intelligent control within a modular container platform, these systems support coordinated development across energy, buildings, and ...

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

We design a solar container that fits your needs and send you a personalized quote.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.
