

Solar power in Morocco is enabled by the country having one of the highest rates of solar insolation among other countries-- about 3,000 hours per year of sunshine but up to 3,600 hours in the desert. Morocco has launched one of the world's largest solar energy projects costing an estimated \$9 billion. The aim of the project was to create 2,000 megawatts of solar generation capacity by 2020. The Moroccan Agency for S...

Discover the top emerging companies in the Solar Energy Startups in Morocco, their funding activity, key investors, company highlights, and growth stages
