

Discover the key advantages of installing a 15KW off-grid solar system, including up to 95% savings on electricity bills, fast ROI, and clean, renewable energy.

We offer a selection of customizable 15kW solar systems ideal for larger homes or commercial use. You can choose between grid-tie with or without battery or off-grid.

Delivering 15kW continuous power with 120/240V split phase output, this inverter is ideal for whole-house solar installations, remote cabins, RV setups, or small commercial buildings.

These Solar Panels are BiFacial with Double Glass. Bifacial technology enables additional energy harvesting from rear of panel (up to 25% more). These will produce more power output in weak light ...

This Lithium Battery bank will give you 30000 Watts of usable Energy. The Solar Array will produce around 69300 Watts per day based on 4.5 hours sun. This size of system generally works great for ...

Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The ...

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go ...

The off-grid solar system operates independently of the utility grid that provides electricity to homes, cabins, or remote facilities that are not able to connect to the main power grid.

This Lithium Battery bank will give you 32000 Watts of usable Energy. The Solar Array will produce around 69300 Watts per day based on 4.5 hours sun. This size of system generally works great for ...

The 15kW Off Grid Solar System frees users from reliance on the traditional power grid. Ideal for remote cabins, off-grid homes, and areas with unreliable grid access.
