

What is Bhutan's national energy policy 2025?

Bhutan's National Energy Policy 2025 (NEP 2025), released in June 2025 by the Ministry of Energy and Natural Resources (MoENR), represents a pivotal shift in the country's energy strategy.

Who is responsible for energy policy in Bhutan?

The Ministry of Energy and Natural Resources set up the Department of Energy as the policy-making body after merging two departments, the Department of Hydropower and Power Systems, and the Department of Renewable Energy. Bhutan's energy sector operations have separate commercial management and ownership from the government.

Who owns the energy sector in Bhutan?

Bhutan's energy sector operations have separate commercial management and ownership from the government. The state-owned Druk Green Power Corporation (DGPC) owns and operates power plants while the Bhutan Power Corporation, also state-owned, performs transmission and distribution.

Is Bhutan a green energy exporter?

Market-Oriented Reforms: Establishing a domestic trading platform and regional interconnections (e.g., via Renewable Energy Certificates) positions Bhutan as a green energy exporter, potentially boosting revenues beyond the current 38% electricity share in total energy supply (793 KTOE in 2022).

The financing will help modernize Bhutan's power distribution system, strengthen the national grid, and deliver more reliable, high-quality electricity to households and businesses.

The Bhutan Power Corporation undertakes the construction and operation of electrical networks for the domestic sale of electricity, and the wheeling of electricity for export.
