

What is the best solar power generator for camping?

Say you need a solar power generator for a few days of camping, over the course of which you're hoping to power a few small devices, a string of lights, and maybe even a small electric cooler--the Anker Solix C800 Plus is the perfect little unit. About the size of a shoebox and just 24 pounds, it's as portable and compact as can be.

How do I choose the best solar generators?

To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases. Some picks were reviewed by Popular Mechanics test editor Brad Ford, who provided input for the larger-capacity units.

What are solar generators used for?

Solar generators are versatile and can be used in a variety of situations. Here's a quick breakdown of where they shine: Home Backup Power: Perfect for keeping essential appliances like refrigerators, lights, and medical devices running during power outages. Outdoor Adventures: Reliable power for camping, RV trips, or off-grid explorations.

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.

We rated and reviewed the best solar-powered generators for home backup during power outages, including models from Generac, Jackery, and more.
