

How can Latvia reduce its reliance on foreign sources of energy?

The Latvian government is interested in diversifying supplies and in developing more local resources to reduce the country's reliance on foreign sources of energy. To reach these targets, government agencies and entrepreneurs have discussed options to move beyond hydropower into wind and biomass power plants.

Is Latvia interested in wood biomass?

Over half of Latvia is covered by forest, so wood biomass presents excellent potential for further development. In addition to renewable energy projects, Latvia remains interested in pursuing a possible liquefied natural gas (LNG) terminal to enhance its energy supply source diversity.

What is the EU's energy policy for Latvia?

The current EU policy dictates that Latvia must increase the share of renewable energy in its final energy consumption and Latvia has plans to reach 50 percent by 2030 according to the EU's National Energy and Climate Action Plan 2030. Much of Latvia's heat and electricity still comes from imported natural gas.

Is there a wind park in Latvia?

Many stretches of the Baltic coast have wind conditions suitable for wind parks, especially offshore. Over half of Latvia is covered by forest, so wood biomass presents excellent potential for further development.

Latvia's communication base station hybrid energy generation 3 44MWh Where is the first battery energy storage system in Latvia? On November 1 Latvia's largest wind energy producer Utilitas Wind ...

List of power plants in Latvia from OpenStreetMap

The most promising sectors for renewable energy equipment in Latvia are energy efficiency solutions, battery storage technologies, biomass power, wind energy, and energy produced ...

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in ...

14 Power stations in Latvia as of October, 2025. Complete business data with contact info, ratings & locations.

Latvia Portable Power Station Market is expected to grow during 2024-2030

High-Efficiency Portable Outdoor Power | Portable Outdoor Power Direct from Factory | Competitive Pricing for Latvia In Latvia, an increasing number of households, industrial and commercial ...

We are the leader of thermal power industry in Latvia specializing in design, manufacturing, assembly and servicing of thermal power station equipment and boiler houses.

Biogas and biomass There are currently a total of 23 operational biogas power stations and seven biomass power stations in Latvia. Most of them are cogeneration stations.

We are now welcoming distributors in Latvia. By partnering with Highjoule, you gain direct access to factory pricing and attractive wholesale opportunities. Together, let's bring more affordable ...
