

Panama has recently announced its first-ever renewable energy and energy storage bidding auctions to meet the growing demand for electricity and enhance grid reliability in the country.

AES is the world leader in lithium-ion-based energy storage, both through our business project and joint venture, Fluence. We pioneered the technology over one decade ago, and today almost half our new ...

Panama has initiated a groundbreaking 500 MW tender auction encompassing renewables and energy storage, marking the first such auction in Central America to include storage.

Unlike other storage conferences, proceeds from the event help to fund high quality journalism across our media titles. This supports the growth of the solar and storage industries as well as the transition ...

With 42% cost reduction in battery storage since 2018, Panama's model proves emerging markets can leapfrog traditional power infrastructure. It's like skipping landlines to go straight to ...

Panama's national secretary of energy has launched its first bidding auction exclusively for renewables and energy storage.

Panama has launched a 500MW tender auction for renewables and energy storage, the first in Central America to include storage.

Panama's grid expansion, managed by the Electric Transmission Company (ETESA), is reviewed annually to integrate new generation capacity effectively. The country is preparing short- ...
