

Bifacial Module Module adopts 182*182mm half cells, bifacial module provide an additional 5%~25% output.

The HGT Series 182mm double-glass modules have higher photoelectric conversion efficiency, stronger heat dissipation, and better mechanical properties. The power generation gain of the double-glass ...

Mate Top Quality 182Mm Cell Plates Module Sun Energy Solar Panel 415W 425W, Find Details and Price about mate 182 Cell solar panel sun energy solar panel from Mate Top Quality 182Mm Cell ...

All Dimensions in mm The above drawing is a graphical representation of the product. For engineering quality drawings please contact SUNKET.

Solar N Plus reserves the sole right of interpretation.

These cells pseudosquared of high-efficiency monocrystalline silicon are made of a single crystal of high purity silicon, to transform solar radiation energy into electrical energy of current.

Q:How can I monitor the performance of my photovoltaic power generation system? A: Answer: We provide you with an online monitoring platform where you can view real-time data and historical ...

182 Bifacial Double Glass Module Series Des: The product combines 182mm large-size silicon wafers with PERC, multi-busbar, half-cut,and improve the energy density of the module with high-density ...

TOPCON has an N-Type Silicon substrate and a thin tunneling oxide is applied, followed by a layer of highly doped with n or p poly silicon that contacts the metal at the ends. These tunneling oxide ...

Jinri Solar focuses on value creation and in the winter of 2020 launches a new generation of high efficiency PV modules, the Jinri 5 series. The new series integrates 182mm large-size silicon wafers ...
