

With a rated AC power of 50kW and a rated capacity of 100kWh, this system boasts a high system voltage range of 739.2V to 950.4V. Benefit from advanced features such as MPPT range of 315 ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Advanced solar energy storage with ultra-safe LiFePO4 or Sodium-ion batteries. Features triple-layer fire protection, seamless off-grid switching, hybrid operation support, IP54 weather resistance, and ...

We offer state-of-the-art, dependable energy storage solutions worldwide, utilizing our deep expertise in electrochemistry, power electronics, and seamless system integration.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

It has a voltage range of 448-584V and dimensions of 2400x1100x2450mm, with an IP54 protection rating. This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic ...

All-in-One Outdoor Energy Storage Cabinet integrates a 125kW bi-directional PCS inverter and 215kWh LiFePO4 battery into a rugged, space-saving solution for commercial/industrial applications.

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...

This outdoor energy storage cabinet integrates energy storage batteries, modular PCS, energy management monitoring system, power distribution system, environmental control system, and fire ...
