

On December 31, 2024, the Rudong Integrated Photovoltaic (PV)-hydrogen-storage Project, operated by CHN Energy's Guohua Energy Investment Co., Ltd. was successfully connected ...

Solar Energy Corp. of India Ltd (SECI) has installed a battery energy storage system (BESS) with a capacity of 152.325 MWh and a dispatchable capacity of 100 MW AC (155.02 MW peak DC) solar ...

Explore our diverse energy storage projects from Japan to the UK and beyond, powering the future efficiently. Discover more!

The Sustainable and Holistic Integration of Energy Storage and Solar PV (SHINES) program develops and demonstrates integrated photovoltaic (PV) and energy storage solutions that ...

Jointly developed by China National Offshore Oil Corporation (CNOOC) and China Southern Power Grid (CSG), it is expected to be the largest parking shed distribution solar power ...

This project involves the construction of a concrete pad and the installation of a battery storage system sized to provide power to cover Cal Poly Pomona's campus operations from 4PM ...

The Emirati state-owned renewables developer Masdar has begun construction on a giant solar-plus-storage project in Abu Dhabi.

Recently, the world's largest photovoltaic (PV) and energy storage project was awarded to a consortium including several Chinese companies. The USD6 billion project in Abu Dhabi is being ...

In a sun-drenched Nevada desert, the Gemini project became America's largest dispatchable single-phase solar + storage system, powering up to 10% of Nevada's peak demand.

Gemini is the largest co-located solar plus battery energy storage project operating in the US, providing a consistent, dispatchable energy resource specifically designed to support Nevada's peak energy ...
