

Photovoltaic outdoor wireless AP base station

Wherever you need to have network capabilities in the field, our industry first Solar Powered Wireless Access Point (SWAP) with 802.af Power over Ethernet is ready to go.

National Solar Technologies introduces Solar Powered Portable Wireless Access Points, combining wireless technology with solar power for exceptional connectivity in remote or off-grid areas.

Looking for a rugged, weatherproof power solution to support your wireless ...

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

HWAP80 outdoor high-power base station AP can cover a wide area of 600 meters, can easily meet the wide coverage requirements of outdoor WIFI projects, and specializes in high-power ...

Looking for a rugged, weatherproof power solution to support your wireless access points or point-to-point antennas? The Tycon RPS2424-100-170 remote power system is designed to keep your critical ...

Provides remote on/off control of each output branch and multi-source inputs (PV, wind, AC, 12V, etc.) for power management flexibility. The Photovoltaic Micro-Station Energy Cabinet is a hybrid power ...

Ventev's Wi-Fi Solar System is a complete, fully-integrated power enclosure system that is pre-wired and pre-assembled for on-site installation of outdoor access points requiring PoE/PoE+ power.

Ventev's Wi-Fi Solar System is a complete, fully-integrated power ...

Ventev's Wi-Fi Solar System is a complete, fully integrated NEMA 4X enclosure system that is pre-wired and pre-assembled for on-site installation of outdoor access points requiring PoE/PoE+ power.

Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission. Pharos Base Stations also feature a built-in mount, ...
