

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

It takes less than 30 seconds to safely and easily lift solar panels and equipment to a two-story roof. At the end of the day simply tuck your lift into a regular work van, or even a car, where it is ready to set up at the next ...

Our solar panel lift makes your solar installation jobs more efficient than ever before. Lift up to 500 lbs worth of panels and material with just the push of a button. The solar series is the perfect solution for most residential ...

Discover solar panel lifts with electric wire rope slings, 200-300kg capacity, ideal for rooftop solar installations. CE certified, steel construction.

The 3S LIFT Ladder Hoist System is a portable solution for lifting heavy & oversized materials, like CMU/Ballast Block and Solar Panels/Modules, vertically to the rooftop hands-free.

The NextGen TranzVolt e-Hoist(TM) is a state-of-the-art tool used to lift solar panels (Solar Kit) and roofing supplies (Roofing Kit) to and from the roof quickly, easily and safely.

Solar panel lifters are designed to facilitate the safe and efficient installation of solar panels. They minimize the physical strain on workers and reduce the risk of accidents related to manual lifting and ...

Geda Solarlifts - Different Modalities For Your Application Area
Unique Concept: The Solar Platform
Geda Solarlift - One Device, Several Advantages
The GEDA Solarlift has particularly been designed for working with sensitive materials and offers a specific solar platform for a safe transport of expensive solar panels. The platform provides a specially developed plastic surface and an extra fixation possibility which can be adjusted as desired. The second transport variation is the collector pl...
