

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

Leveraging years of expertise in the aluminum industry, our seasoned engineering team has developed a machine that epitomizes durability. With proper maintenance and care, the MightyLifter promises to ...

Geda Solarlifts - Different Modalities For Your Application Area
Unique Concept: The Solar Platform
Geda Solarlift - One Device, Several Advantages
Altogether, the GEDA Solarlift offers a broad range of advantages. The lift's acquisition costs are worth the money and the lift itself is quite space-saving. Its construction is made of separate modules that can easily be assembled in the desired ladder length. This flexibility also offers the availability to use it at places that are hard to access...
