

Elevate your solar panel installation with our durable, galvanized steel Photovoltaic Panel Lift, featuring a 4-25m lifting range and automatic turning and flip for efficient panel positioning.

After the decision of placing a photovoltaic system on the roof has been made, the solar panels need to be mounted. It might sound like a lot of work at first, but GEDA Solarlift is your choice for assembling ...

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

The TranzVolt is a battery powered, solar panel hoist, which allows for the vertical lift of modules to the rooftop. This is an excellent option for projects located in remote, off grid, or new construction areas ...

Let's face it - when you think about solar energy production, photovoltaic panel flip machines probably don't top your list of conversation starters. But here's the kicker: these mechanical workhorses are ...

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

A small tool specially designed for roof construction - an electric small lift. It is small in size and easy to operate, especially suitable for carrying heavy objects such as photovoltaic panels, glass doors and ...
