

What is the best portable power station for home backup?

Key Details: For those who need reliable power without the bulk, the Anker SOLIX C1000 delivers a surprising punch in a small package. It's easily one of the best lightweight portable power stations for home backup and is especially suited for apartments, travel trailers, or short-term outages.

How do I choose a backup power station?

Below are the key factors that will help you decide which model fits your backup power goals best: Battery capacity, measured in watt-hours (Wh), tells you how much energy the power station can store. A higher Wh means longer runtimes for your appliances. For basic needs like lighting, routers, or phone charging, 500-1000Wh is usually enough.

What is the best portable power station?

If you're powering an entire RV, charging an EV, or backing up a home's critical loads, this is one of the most future-ready portable power stations on the market. The SOLIX F3800 from Anker brings true 120V and 240V dual-voltage output to the table, meaning it can handle anything from your dryer to your electric car.
