

Scalable Solar-Powered Containers for Drilling Sites

Each unit is 100% solar-powered with battery backup, requiring no fuel, generator, or grid connection--ensuring uninterrupted, dependable operation in any environment.

Discover solar powered shipping containers with 10-50KW off-grid systems, lithium batteries & 25-year capacity guarantee. Ideal for solar powered AC and cold storage.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site. ...

An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it's needed. Built for multi-industry use, our systems replace ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel. Get your free quote today!

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Designed to house advanced battery technologies within robust, transportable containers, these systems offer unparalleled scalability, rapid deployment, and operational flexibility.

Mobile solar power containers offer a range of power outputs from 10 kW to 500 kW or more, making them suitable for small off-grid sites to large industrial operations.
