

Solar container outdoor power made in the UK

Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that ...

We have a range of modular off grid container, (or other) based power supplies. The beauty of our systems is they are completely expandible in terms of PV Panels, Inverter Kw output/phases and ...

These days, it's easy to build modular systems that can work independently or together to provide more power. When creating the Solar-Gen range we designed it so that in its standard form it would have ...

A containerized, movable off-grid solar power solution that unfolds into a high-capacity PV array in minutes. Designed for fast deployment, reliable output, and easy transportation to remote sites, ...

Thanks to the latest version of our container-based e-SPRINGBOX solar generator, you can deploy and start up a clean and silent solar power plant without any structural engineering or specialist handling.

The beauty of our systems is they are completely expandible in terms of PV Panels, Inverter Kw output/phases and ...

A deployable off-grid power system - ground-mount solar plus a battery energy storage system (BESS) packaged in a trailer or welfare cabin - lets UK construction projects break free of ...

We can even build compact power supplies for camping charged by the sun or any off grid solar system you require. Choose from a wide range of off grid products, including full solar kits, solar PV, off grid ...

Access off-grid power, wherever and whenever you need it. Solatiner™ uses integrated renewable power and storage, alongside a diesel-power back-up, to reduce fuel consumption, emissions, ...

Solar container outdoor power made in the UK

As demand for decentralised energy grows, the UK market is poised to adopt containerised solar systems at a scale that could fundamentally change how we deliver off-grid power.

Tide Power Solar Power Container is a highly integrated, plug-and-play mobile green energy solution. Built within a standard container, it innovatively combines a foldable PV array, a high-efficiency ...
