

# Solar power generation project list announced

Here is a list of the largest planned solar projects in development in the US --ranked by planned capacity in megawatts. These projects are expected to come online in the coming years. Scroll down ...

The top renewable energy construction projects include Gujarat's 30 GW hybrid park and Australia's 50 GW TeraWatt Solar Project.

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Concentrating solar power (CSP) projects in United States are listed below alphabetical by project name. You can browse a project profile by clicking on the project name.

This auction has produced a record number of solar projects bolstering our mission for a solar revolution, we have powered forward with onshore wind, secured the largest ...

Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in United States (US) with our comprehensive online database.

Explore the top US utility-scale solar projects of 2024-2025. Learn how gigawatt-scale farms and integrated battery storage are powering America's energy future.

The utility-scale data covers all operating solar farm phases with capacities of 1 megawatt (MW) or more and all announced, pre-construction, construction, and shelved projects with capacities greater than ...

Several significant solar projects were announced or progressed worldwide during October 2025, reflecting strong ongoing investment in renewable energy across key regions.

FirmoGraphs is tracking more than 100 very large solar projects starting construction in 2023 with a total estimated value of nearly \$40 billion.
