

Solar power plant in Hi-Tech Industrial Park

Huawei Technologies (Malaysia) Sdn Bhd (Huawei Malaysia), N.U.R Power Sdn Bhd (NUR Power) and JS Solar Sdn Bhd (JS Solar) will jointly develop an inaugural Smart and Green ...

Samaiden Group Bhd has bagged a RM100 million contract to build a 50-megawatt solar power plant (first phase) in Kulim Hi-Tech Park, Kedah. In a Bursa Malaysia filing, Samaiden said its unit ...

Shandong Jinan Laiwu Hi-Tech Zone Industrial Park solar project is a solar photovoltaic (PV) farm in pre-construction in Laiwu, Jinan, Shandong, China.

By harnessing the power of the sun, Hitech's factories are now generating a substantial portion of their electricity requirements. The company has installed state-of-the-art solar panels on its plant rooftops, ...

It will cultivate cutting-edge industries such as the sixth generation of communication technology, next generation of photonic devices, brain-like intelligence, hydrogen energy, gene and ...

This notable project, which involves the development of a ground-mounted 50 megawatts ("MWac") solar power plant (first phase) is to supply green energy to all customers located at KHTP.

The proposed solar project will be able to generate a good amount of electricity for Walton Hi-Tech Industries PLC.situated at Chandra, Kaliakoir, Gazipur, Bangladesh.

Build your solar park with KPI Green Energy. Explore our streamlined process for industrial land -- sustainable, scalable, and power-optimized.

Gonghe Hi-Tech Wealth Solar PV Park Phase III is a ground-mounted solar project which is spread over an area of 33.4 acres. The project generates 36,200MWh of electricity.

The project aims to expand and strengthen the infrastructure of Zhangjiang Hi-Tech Park, with a particular focus on the high-tech and biopharmaceutical sectors, to promote innovation and attract ...
