

What services does EMT offer in Togo?

EMT, a Grundfos distributor in Togo, has expertise in drilling boreholes and offers a range of integrated services in civil engineering, water and sanitation. Manually operated hand pumps -- with all their drawbacks -- are still widespread in many rural regions of Togo.

Can a submersible pump be used in Sokodé's borehole?

Leon Roland Elongue Akame, the Senior Sales Manager for Grundfos SafeWater in West Africa, says the solution for Sokodé was to install a Grundfos SP submersible pump in the district's borehole. The pump is paired with renewable solar inverters and solar panels.

Can solar power replace hand pumps?

The government is addressing the problem by contracting with companies such as the Lomé-based Entreprise Moderne de Technologie (EMT) to replace hand pumps with highly reliable solar-powered technology that supplies a strong, constant flow of water at the turn of a tap.

Description Supply, Installation, Training and Commissioning of Solar Water Pumps in Togo. Interested suppliers must submit their offer directly in the system as instructed in the ...

In the Savanes region of northern Togo, near the city of Dapaong, two Pump & Drink stations have been installed by our local partner, replacing manual pumps to provide clean drinking ...
