

Trina Photovoltaic Panel Silicon Crystal Series

Chinese PV manufacturer Trina Solar has unveiled what it claims is "the world's first fully recycled" crystalline silicon module. The panel has an efficiency of 20.7% and a power output...

Trina's products have a strong track record of reliability and performance in the field. As a vertically integrated company, Trina tightly controls quality at every step from silicon crystallization to module ...

These panels deliver solid performance for homeowners seeking best Trina solar panels for residential use without premium pricing. Power ratings range from 405W to 435W with efficiencies ...

Read EnergySage's review of Trina Solar, based on product specifications for every Trina solar panel series, to make your solar research process easier.

Trina Solar, established in 1997 by Jifan Gao in Changzhou, China, has grown into a global leader in photovoltaic (PV) manufacturing. Initially focusing on system installations, the ...

Trina Solar's most popular panel. Versatile and adaptable, with power output ranging from 225 to 245Wp, the TSM-PC05 is perfect for large-scale installations, particularly ground-mounted and ...

Breaking world records for crystalline silicon cell efficiency and module power output since 2011. The industry's first module manufacturer to mass produce TOPCon modules with power output exceeding ...

Harness the power of the sun with our Trina 405W Solar Panel. Designed with 144 high-efficiency cells, this panel delivers consistent energy output even in low light conditions.

Chinese PV manufacturer Trina Solar has unveiled what it claims is "the world's first fully recycled" crystalline silicon module. The panel has an efficiency of 20.7% and a power output exceeding 645 W.
