

What are the best lithium battery storage cabinets?

Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage. Built with advanced fire protection, our products include 60- and 90-minute fire-rated cabinets tested up to 105 minutes to meet EN14470-1 standards, ensuring your batteries are safe even under extreme conditions.

What is commercial battery storage?

Commercial battery storage is a system that uses large, rechargeable batteries to store electricity for a business. They store energy from renewable sources like solar panels as well as from the grid during off-peak times. This allows the business to use this energy during high peak times or power outages.

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.

Are lithium-ion battery storage cabinets safe?

This range of Lithium-Ion battery storage cabinets from ESE Direct provides a safe solution for both storing and charging of lithium-ion batteries, all cabinets are certified to standard EN 14470-1 - 90 minute fire resistance, with automatic door closing, bottom collecting sump with a capacity of 33 litres, a fire suppression system and alarms.
