

What kind of solar power does Xu Yun use

Xu-yun's ruthless determination and utter indifference to obstacles or to the body's suffering is nowhere better illustrated than in his description of the trials leading up to the ultimate, and quintessentially ...

By the time Xu Yun died, China was under communist rule, monasteries were being seized, and religious life was under immense pressure. Between those two worlds, Xu Yun became ...

No doubt, the main thing for a Buddhist is the instructional talks, and Xu-yun's are rich in insights, but it is only natural that we should wonder about the individual, human factors, asking what life was like ...

Through master Xu Yun's spiritual power and wisdom, a wave of transmission of Chinese Buddhist teaching has emanated from China out into the world, and it is a movement that has gathered ...

In this sense, Master Xu-yun lived out the mythical role of the "poison-eating peacock" in Buddhist lore; from the bitterness of that poison something spiritual sprang forth.

As a sustainable and environmental friendly renewable energy power technology, concentrated solar power (CSP) integrates power generation and energy storage to ensure the smooth operation of the ...

Master Xu Yun suggested that he "volunteer" to work in the monastery without wages and just a single bowl of watery-rice a day to build and generate good karmic energy used to benefit everyone.

The power of the mind as Xu Yun conceived, it was not an abstract idea that theorised about reality but never actually proved its theorisation. Instead, the mind in its entirety is the underlying reality to all ...

These are just two examples of systemic problems extant within the early politicised biography of Master Xu Yun. Obviously, this had nothing to do with Master Xu Yun himself - but is a product of those ...

Behind Jia Wu-tais peak I found the Lion Cave, which was a secluded place for spiritual retirement. I then changed my name to Xu-yun (Empty Cloud) to avoid unwanted visitors. As there was no water ...
