

The company is developing tandem solar cells that will incorporate perovskite materials into its next generation of modules, aiming to deliver higher efficiency and improved performance under ...

For more than 20 years, Yingli Solar has produced more than 30GW of solar products cumulatively from solar street lamps to large solar power stations, which are widely used in solar power generation ...

Yingli Green Energy Holding Company Limited, one of the world's leading solar panel manufacturers, known as "Yingli Solar"; has announced that it is supplying 38.4 MW of solar panels to a rural ...

The new products will highly increase solar power production and the cost has been reduced to 0.8 yuan per kilowatt hour. All products are sold in Ningxia, and the affordable products ...

Yingli Energy Development Co., Ltd. (Yingli Solar) is a smart PV energy solution provider integrating PV technology R& D, intelligent manufacturing, and development, construction and operation of power ...

With solar power, #Yingli is helping rural communities harvest both crops and clean energy -- generating income, reducing emissions, and supporting China's dual carbon goals.

For rural and township households, saving on electricity and ensuring steady power matter most, but professional maintenance isn't always within reach. With high conversion efficiency, the Yingli Solar ...

The PV module of Yingli Solar silently begins its daily energy harvesting as the first light of dawn appears on the planet. These deep blue PV panels convert the sun's abundance into clean electricity...

Yingli Energy Technology Group is one of the world's leading providers of BIPV products and integrated photovoltaic solutions, which aims to provide clean energy for all and built a Zero-carbon world.
